MODEL 6000 C COMPRESSION TOOL

This GP Tools compression tool fills the requirements for a great variety of metal working operations either in shop or field. It operates on standard line air pressure (90 - 100 psi) (6.12 - 6.8 bar) and is conveniently operated by one hand or can be bench mounted with foot control (optional) thereby freeing both hands. A wide variety of interchangeable yokes* are available from the standard 1-1/2" reach x 1-1/4" gap to 6" reach x 1-3/4" gap. The rugged design and quiet operation is ideal for many metal working applications.
